

## Charge and Sync Solutions

## Sync, Charge, Transport and Store

Syncase is a unique and innovative range of cases and trolleys designed to simultaneously sync and charge tablet devices and laptops - ideal for all sectors including schools, colleges, retail, military, industrial environments, hospitality, businesses and much more!

Syncase, designed and manufactured by Trifibre, who have over 32 years of experience and have an outstanding reputation for delivering bespoke and innovative design led products. As a result, the Syncase range is designed and manufactured in house, allowing us to produce completely bespoke items for our customers to meet their exact requirements. Trifibre is also an ISO 9001 registered company, ensuring all our products are designed and manufactured to the highest quality standards.

 SYNCASE

# SYNCASE CUBE

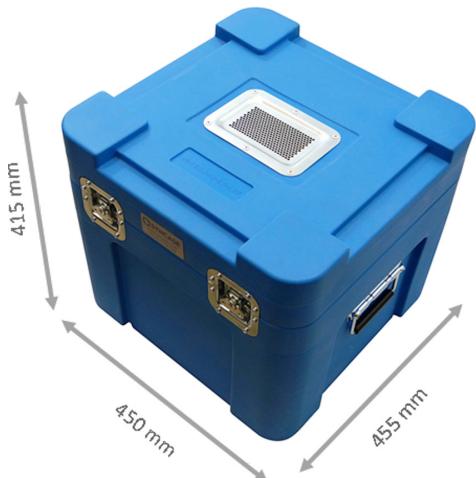

The Syncase Cube is a future-proof device and can charge all current USB chargeable devices. Future devices can be supported via firmware updates available on our website. The case allows you to sync and charge up to 8 devices at once with a single power cord connection.

- The intelligent power hub detects and adapts to connected devices, ensuring that each device is charged at the optimum rate.
- The Syncase Cube offers outstanding data transfer reliability and speed.
- A stackable and portable design, with heavy duty handles and latches.
- Designed and manufactured in the UK by Trifibre.

The Syncase Cube foam is supplied as Black/Blue as standard. This can be changed to Black/Red, Black/Green or Black/Yellow for an additional charge.

## Customisation

The Syncase range can be customised to match the branding of your school or organisation. Our in-house design team can customise your Syncase to match your school badge or organisation's logo, as well as providing a range of foam colour.

## Custom Made Syncase

With our Syncase products becoming increasingly more popular within all industries, we are able to design and manufacture bespoke Syncase products in-house, to suit the individual specifications of our customers.

Whether you require a more heavy duty Syncase for extra protection during transportation or a Syncase that holds more than 32 devices, our friendly sales team and in-house design and manufacture departments can produce a case to suit your exact specifications, there is no limit to the charging capacity of one case.
