

## Plastic Cases

Plastic cases are an ideal and economical solution for promotional packaging, product presentation and sample cases. Manufactured from environmentally friendly polypropylene, our plastic cases are strong, lightweight and durable. Available in a variety of colours, plastic cases can also be screen-printed with your company's logo – great for reflecting your corporate image or brand.

## Bespoke Casing Solution

Plastic cases can be further customised by adding a bespoke foam insert to the interior of the case, ideal for both presentation and protection. Foam is also available in a variety of colours and our CNC routing machine can route cavities of any shape and size, keeping your products secure and well presented.

## Lightweight and Reliable

Aluminium cases are relatively lightweight, yet extremely strong making them unaffected by extreme temperatures and rustproof.

Our in house silk screen printing department allows us to offer corporate branding to your case.

Our plastic cases are smart, elegant and professional looking, making them ideal for using as presentation cases.
